

**With Pat Peabody**

## **Setting New Moon Intentions**

### **Pre-Registration Required**

There are 4 phases of the moon every month, a New Moon, 1<sup>st</sup> Quarter, Full Moon and Last Quarter. Every 28 days of each month we experience a New Moon. This Moon phase is felt by us all globally as well as individually. This is the darkest time of the month and a great time for planning and planting seeds for the future. It's also an opportune time to consider goals and how we might achieve them. Based on the energy of the Sun, Moon and the other planets, we will discuss how we can best utilize the upcoming energy to achieve our heart's desire. Please join me for the upcoming three new moons as we discuss some basic astrology skills, brief meditation and some New Moon affirmations and intentions for the upcoming month.

*Pat Peabody has had a lifelong interest in astrology and feels it is an amazing tool for self-understanding and self-empowerment. She is a past president of the Astrological Society of Connecticut and a regular contributor at the Center for Progressive Therapies in Manchester.*
